High wear areas can be easily replaced with modular liners

Jaw Crusher Feed Chute, lined with 3" thick 12x12 Modular Rubber Liners, with one internal 1" NC mounting nut.

Our modular liners contain a lab tested rubber compound that gives long life and **protection against impact**, cutting, tearing and abrasion. **Easy to install**, the liners have **mounting options**, plugs included, and can be cut with a band saw.

Rubber:

- Standard rubber
- 2,800 PSI tensile strength

Modular Liners:

- Two sizes:
 - 12"x 12"
 - 6" x 12"
- Two thicknesses:
 - 1 1/2" with 1/4" plate
 - 2" with 1/4" plate

Additional options:

- Number of mounting holes from 1-4 per liner
- Ceramics
- Steel backing thicknesses
- Quantity discounts
- Custom shapes and sizes

Mounting Options

Magnetic options are also available
